ITEM 7.01. REGULATION FD DISCLOSURE.

On March 4, 2024, American Airlines Group Inc. (the "Company") is presenting information relating to its financial and operational outlook at its 2024 Investor Day. As previously announced, this presentation will be webcast with the link available at the Company's website at www.aa.com under "Investor Relations." The presentation slides are furnished as Exhibit 99.1 to this report.

Also, on March 4, 2024, the Company is providing an update to investors concerning its targeted financial performance for the full years 2024, 2025, 2026 and beyond.

	2024E	2025E	2026E+
Adjusted EBITDAR margin[1]	~ 14%	~ 14%–16%	~ 15%–18%
Free cash flow[2]	~ $2B	> $2B	> $3B
Total debt[3]	~ $41B	~ $39B	< $35B

[1] Adjusted EBITDAR is defined as earnings excluding the impact of net special items before net interest and other nonoperating expenses, taxes, depreciation, amortization and aircraft rent, and is a non-GAAP measure.

[2] Adjusted free cash flow is defined as net cash provided by operating activities less net cash used in investing activities, adjusted for (1) net sales of short-term investments and (2) change in restricted cash, and is a non-GAAP measure.

[3] Total debt includes debt, finance and operating lease liabilities and pension obligations.

Certain components of the guidance provided exclude net special items. The Company is unable to fully reconcile this forward-looking guidance to the corresponding GAAP measure because the full nature and amount of net special items cannot be determined at this time.

The information in this Item 7.01 is being furnished and shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section and shall not be deemed incorporated by reference into any registration statement or other document filed pursuant to the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

Non-GAAP Financial Information and Financial Guidance

The Company sometimes uses financial measures that are derived from the condensed consolidated financial statements or otherwise provided in the form of guidance but that are not presented in accordance with GAAP to understand and evaluate its current operating performance and to allow for period-to-period comparisons. The Company believes these non-GAAP financial measures may also provide useful information to investors and others. These non-GAAP measures may not be comparable to similarly titled non-GAAP measures of other companies, and should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flow or liquidity prepared in accordance with GAAP. As net special items may vary from period to period in nature and amount, the adjustment to exclude net special items allows management an additional tool to understand the Company's core operating performance. Additionally, management uses adjusted EBITDAR margin and adjusted free cash flow, among others, which are non-GAAP measures, to evaluate the Company's current operating performance and the Company's ability to generate cash from its core operating performance that is available for use to reinvest in the business or to reduce debt.

The Company does not provide a reconciliation of forward-looking measures where the Company is unable to reasonably predict certain items contained in the GAAP measures without unreasonable efforts. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred and are out of the Company's control or cannot be reasonably predicted. For the same reasons, the Company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.
