The release contains non-GAAP financial measures; in the release these are referred to as "comparable," "adjusted," "organic," or "excluding Canopy EIE" measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a registrant's historical or future financial performance, financial position, or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet, or statement of cash flows (or equivalent statements) of the registrant; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. In this regard, GAAP refers to generally accepted accounting principles in the United States. Pursuant to the requirements of Regulation G, the Company has provided reconciliations within the release of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

Comparable measures, including those presenting the impact of the Company's equity method investment in Canopy Growth Corporation ("Canopy"), adjusted measures, and organic net sales measures are provided because management uses this information in monitoring and evaluating the results and underlying business trends of the core operations of the Company, its investment in Canopy, and/or in internal goal setting.
