On February 6, 2024, Air Products and Chemicals, Inc. (the "Company") entered into an Underwriting Agreement (the "Underwriting Agreement") with Barclays Capital Inc., BofA Securities, Inc., Deutsche Bank Securities Inc., Standard Chartered Bank and Mizuho Securities USA LLC, as representatives of the underwriters named therein, relating to the issuance and sale by the Company of (i) $750,000,000 aggregate principal amount of its 4.600% Notes due 2029 (the "2029 Notes"), (ii) $600,000,000 aggregate principal amount of its 4.750% Notes due 2031 (the "2031 Notes") and (iii) $1,150,000,000 aggregate principal amount of its 4.850% Notes due 2034 (the "2034 Notes" and, together with the 2029 Notes and the 2031 Notes, the "Notes"). The offer and sale of the Notes was registered under the Securities Act of 1933, as amended (the "Securities Act"), pursuant to the Company's Registration Statement on Form S-3 (File No. 333-275663), which was filed on November 20, 2023 (the "Registration Statement"). The offer and sale of the Notes is expected to close on or about February 8, 2024, subject to customary closing conditions.

The Notes are being issued pursuant to an Indenture, dated April 30, 2020 (the "Indenture"), between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee (the "Trustee"), and an officer's certificate (which includes the forms of the Notes as exhibits) setting forth the terms of the Notes. The Company may, at its election and upon the terms set forth in the Notes, redeem the Notes, in whole or in part, from time to time at the redemption prices and on the terms and conditions set forth in the Notes. The Company expects to allocate an amount equal to the net proceeds from the offering to finance or refinance, in whole or in part, one or more Eligible Projects (as defined in the prospectus supplement relating to the Notes), including: (i) expenditures and investments related to pollution prevention and control, including for the development, construction and installation of green and blue hydrogen and green and blue ammonia projects and assets; (ii) expenditures in renewable energy generation and procurement; (iii) expenditures and investments related to sustainable aviation fuel; and (iv) other Eligible Projects. Pending full allocation of the net proceeds to the portfolio of Eligible Projects, the Company may hold and/or invest the balance of the net proceeds not yet allocated, at its discretion, in its Treasury liquidity portfolio (in cash or cash equivalents, money market funds, etc.) in line with the Company's Treasury management policies or use such net proceeds to repay a portion of the Company's outstanding indebtedness.

The Underwriting Agreement is attached as Exhibit 1.1 to this Current Report on Form 8-K. The Underwriting Agreement contains representations, warranties and covenants that were made only for purposes of such agreement and as of specific dates, is solely for the benefit of the parties to such agreement and may be subject to limitations agreed upon by the contracting parties.
