EXPLANATORY NOTE

This Amendment No. 1 amends the Current Report on Form 8-K filed by DXC Technology Company (the "Company" or "DXC") on February 1, 2024 (the "Original Filing") to disclose the employment agreement with Raul J. Fernandez in connection with his appointment as President and Chief Executive Officer of the Company. At the time of the Original Filing, such employment agreement had not been determined. Except as set forth below, the Original Filing is not being amended.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

In connection with Mr. Fernandez's appointment, DXC entered into an employment agreement with Mr. Fernandez on March 31, 2024, which was effective as of April 1, 2024. Pursuant to the employment agreement, Mr. Fernandez will receive compensation that includes an annual base salary of $1,380,000 (subject to adjustment), and annual bonus eligibility with a target amount of 200% of base salary. Mr. Fernandez will also receive equity awards each fiscal year, with the award for fiscal year 2025 to have an aggregate value equal to $14,950,000, which is expected to be delivered 70% in the form of performance-vesting restricted stock units ("PSUs") and 30% in the form of time-vested restricted stock units ("RSUs"). The employment agreement also provides for the following perquisites: use of company aircraft (owned or chartered) for reasonable personal use for domestic flights, subject to limits to be determined by the Company's board of directors; reimbursement of up to $50,000 annually for tax preparation and financial planning; and reimbursement for up to $50,000 annually for Mr. Fernandez's concierge medical plan premiums. The employment agreement also includes restrictive covenants, including a perpetual confidential information covenant, and non-competition and non-solicitation covenants that apply during Mr. Fernandez's employment and for one year following termination.

The employment agreement also provides for an initial grant of performance-vesting restricted stock units (the "Initial PSU Award") with a target number of 106,666 PSUs (the "Target PSUs"). The Initial PSU Award is eligible to vest on March 31, 2026 based on the achievement of average share price performance metrics during a consecutive 60 day period measured in the 90 day period ending on March 31, 2026. If threshold performance is achieved, he will receive 50% of the Target PSUs, if above threshold performance is achieved, he will receive 75% of the Target PSUs, if above target performance is achieved, he will receive 150% of the Target PSUs, and if maximum performance is achieved he will receive 250% of the Target PSUs. To the extent the actual performance falls between any of the thresholds listed above, the percentage of Target PSUs that vest will be determined using linear interpolation. If Mr. Fernandez's employment terminates in a qualifying retirement (as defined in the employment agreement), the Initial PSUs will remain outstanding and eligible to vest based on actual performance, and if his employment terminates in a qualifying termination (as defined in the PSU award agreement), a prorated number of PSUs, determined based on the full months of Mr. Fernandez's continuous service during the performance period, will remain outstanding and eligible to vest based on actual performance.

Upon a termination without cause or for good reason (as each term is defined in the employment agreement), Mr. Fernandez will be entitled to payment of a prorata bonus for the year of termination, and a severance payment equal to the sum of his base salary plus his target bonus (or his average bonus over the last three years, or shorter term of employment, in the event of a termination within three years following a change in control), multiplied by two (or multiplied by three in the event of a termination without cause that occurs within three years following, or a resignation with good reason that occurs within two years following, a change in control of the company). Outstanding equity awards will be administered in accordance with the terms of the applicable equity award agreements, including continued compliance with restrictive covenants. The form of PSU award agreement provides that on a qualifying retirement, any PSUs for which the first fiscal year in the performance period is complete at the time of termination will remain outstanding and will vest on the scheduled vesting date, based on actual performance achieved, and on a termination without cause or for good reason, a prorated portion of any outstanding PSUs for which the first year in the performance period is complete will remain outstanding and will vest on the scheduled vesting date, based on actual performance achieved. The form of RSU award agreement provides that on a qualifying retirement, any RSUs with a grant date more than 12 months prior to the retirement date will remain outstanding and will vest and on the scheduled vesting dates, and on a termination without cause/for good reason, a prorated portion of any outstanding RSUs will vest and be settled immediately.
